

COOLIDGE RARE PLANT GARDENS

AUGUST 2nd, 1955

A selected list of fine cymbidiums. The names and parentage will convince you that this is a rare opportunity to complete your collection, particularly at the low prices quoted. As to color of flowers, items marked with an asterisk (*) come under the "probable" classification. As we have available only a limited number of each, we would suggest naming some substitutes and advising us promptly of your requirements, as we are selling from this list from day to day.
